

**FIRST FRIDAY FORUM
FRIDAY, SEPTEMBER 9, 2022**

NOTE: THIS IS THE SECOND FRIDAY OF THE MONTH

**TITLE: PEDIATRIC BEHAVIORAL HEALTH DISASTER PREPAREDNESS AND RESPONSE:
TOOLKIT REVIEW AND PERSONALIZED ACTION PLANS FOR PSYCHOLOGISTS
CAROLYN LEVERS-LANDIS, PH.D, LP, DBSM; KIMBERLY BURKHART, PH.D., LP**

This program qualifies for 3.0 continuing education credits

Level: Intermediate: Assumes post-doctoral education status and general familiarity with topic

Location: Registrants will receive a Zoom link to access the webinar online

About the Program:

Workshop participants will acquire an operational knowledge of the Pediatric Disaster Preparedness and Response Toolkit for Psychologists assembled during the COVID-19 pandemic by an intra-professional group of national experts from HRSA's Pediatric Pandemic Network (PPN) and the ASPR Pediatric Disaster Centers of Excellence. The toolkit consists of professional trainings for obtaining credentials, webinars, pediatric patient/family info-graphics, telehealth licensing options, and empirical research papers/systematic reviews. Led through the toolkit by case vignettes, attendees will intermittently break off into moderated small groups to create individualized action plans to become subject matter expert responders. The U.S. government has identified an urgent need for a whole child, whole community, and whole population concept of operations that systematically includes children at all levels of disaster education starting at the community level. Even though children make up 25% of the population, planning for whole community threats or disaster response and readiness rarely considers children. Multiple federal grants and initiatives, including the newly funded PPN, are supporting subject matter experts to bring specialized education and training to all professionals caring for children. The data gathered via ASPR's Pediatric Disaster Care Centers of Excellence establish the urgency of this need to "ensure children are never left out of disaster prevention, protection, mitigation, and response and recovery operations."

This program qualifies for 3.0 continuing education credits.

The speakers have no conflicts of interest to report

Participants will be able to:

1. Recognize the federal grants and initiatives that are supporting disaster preparedness and response for children and their families.
2. Become familiar with the Pediatric Disaster and Response Toolkit for Psychologists through the lens of various specific case illustrations.
3. Gain the skills for creating an individualized action plan in a small-group setting using Qualtrics that includes specific timelines to be better prepared for both current and future pediatric disasters, particularly in their roles as subject matter experts.

About the Presenters:

Carolyn levers-Landis, Ph.D, LP, DBSM, is a licensed clinical psychologist, Diplomate in Behavioral Sleep Medicine and Professor of Pediatrics at Rainbow Babies & Children's Hospital, UH Cleveland Medical Center

and Case Western Reserve University. She received her Ph.D. from Case Western Reserve University in clinical psychology and has a clinical and research specialty in pediatric psychology, including child/adolescent sleep disorders. Dr. Ievers-Landis has served since October of 2019 as the Co-Chair of the Behavioral Health Committee of the Assistant Secretary for Preparedness and Response (ASPR)-funded Eastern Great Lakes (now Region V) Pediatric Disaster Care Center of Excellence. Dr. Ievers-Landis is also a Behavioral Health Domain co-lead for the Pediatric Pandemic Network. She has been an expert speaker for national webinars for ASPR TRACIE (Technical Resources, Assistance Center, and Information Exchange) and for the 2021 Preparedness Summit conference.

Kimberly Burkhardt, Ph.D., LP, is a clinical child psychologist at Rainbow Babies and Children's Hospital and associate professor of pediatrics at Case Western Reserve University School of Medicine in Cleveland, Ohio. She received her Ph.D. in clinical psychology from the University of Toledo. Clinically, Dr. Burkhardt specializes in the assessment and treatment of children with neurodevelopmental disorders and trauma-and stressor-related disorders. Her research interests include autism spectrum disorder, fetal alcohol spectrum disorder, adverse childhood experiences (ACEs), parent training, and integrated care. Dr. Burkhardt has been either a principal investigator or co-investigator on federal, state, and foundation grants focused on trauma-informed integrated care, violence prevention and intervention, and behavioral health disaster preparedness and response. Dr. Burkhardt serves as Co-Chair of the ASPR Behavioral Health Committee for FEMA Region 5 and Behavioral Health Domain Lead for the Pediatric Pandemic Network.

Susan O'Grady, Psy.D., LP, is the Director of Professional Affairs for the Illinois Psychological Association, Training Director for a group practice in the suburbs of Chicago, and an Adjunct Professor of Psychology at Roosevelt University in Chicago and Schaumburg, IL. Additionally, Dr. O'Grady is the Continuing Education Committee Chair and a member of the Healthcare Reimbursement Committee, Legislative Committee, and the Equity, Diversity and Inclusion Committee for the Illinois Psychological Association. Dr. O'Grady received a Psy.D. in clinical psychology from the Illinois School of Professional Psychology at Argosy University, Schaumburg, IL. Dr. O'Grady specializes in working with children, adolescents, adults, couples, and families. Additionally, Dr. O'Grady holds a Professional Educator's License in Illinois, having taught at the elementary school level.

You must attend the full program to get continuing education credit.

The Minnesota Psychological Association is approved by the American Psychological Association to sponsor continuing education for psychologists. The Minnesota Psychological Association maintains responsibility for this program and its content.

CONFIRMATION/CANCELLATION: You will receive an emailed confirmation of your registration. You will be notified by mail, e-mail or telephone if your selection is filled or cancelled.

REFUND POLICY: A 100% refund will be made if the event is cancelled. Refunds, less a \$5 handling fee, will be given if a written cancellation is received at least two working days before the scheduled program begins. No refund or transfer is given the day of the program.
